Bm            A            G  
This is my prayer in the desert  
          Bm            A            G  
When all that's within me feels dry  
Bm            A            G  
This is my prayer in my hunger and need  
          Bm            A            G  
My God is the God who provides

Bm            A            G  
This is my prayer in the fire  
          Bm            A            G  
In weakness or trial or pain  
Bm            A            G  
There is a faith proved of more worth than gold  
          Bm            D/F#            G  
So refine me Lord through the flame

                          D                            A  
And I will bring praise, I will bring praise  
                          G                            D  
No weapon formed against me shall remain  
A/C#    A                            Bm  
I will rejoice, I will declare  
                          G                            A    Bm // A // G // //  
God is my victory and He is here

Bm // A // G // //

Bm            A            G  
This is my prayer in the battle  
          Bm            A            G  
When triumph is still on its way  
Bm            A            G  
I am a conqueror and co-heir with Christ  
          Bm            A            G  
So firm on His promise I'll stand
